

PhD FELLOWSHIPS

Fellowships for postgraduate studies and doctoral thesis in
thermal engines at CMT-Motores Térmicos
Universitat Politècnica de València, Spain

Number of Fellowships: 15

Requisites

- University degree or equivalent with a background formation in one of the following topics: Fluid Mechanics, Heat and Mass Transfer, Energy, Combustion, Thermal Engines (others may also be considered).
- Degree obtained after June 2012 and before September 2014
- Birth date: After 1st of January 1987

In addition to the consideration given to the academic records of a candidate, specific knowledge in computer science and English will be valued.

Non-European students will have to pay a supplement of about 160 € for the [registration](#) at UPV and the transcript of their titles.

Grant conditions

In normal circumstances, and depending on possible changes in Spanish law, CMT-Motores Térmicos guarantees that the student will have a grant for up to four years maximum.

First year

During this period, the students will attend master courses, with the following benefits:

- A scholarship of 1028 € per month (August excluded)
- Master courses fees (value of approximately 3400 €/year)
- Medical insurance (value of approximately 400 €/year)

Following three years

Beginning with the second year, the scholarship conditions will be improved, or at least maintained.

The scholarships holders may be proposed as candidates for grants offered by official public programs, with additional benefits.

Place

CMT-Motores Térmicos, Universitat Politècnica de València. Camino de Vera s/n. 46022 Valencia (Spain).

Deadline

Applications must be sent between 20th of February and 15th of May 2014
